Beamer Theme Demo

Agenda

- Purpose: check the `beamer` theme visual language.
- Expected layout: landscape slide, deep-blue header and footer bars.
- Content blocks should use dark-blue titles with light blue-gray bodies.
- Tables, code, math, and quotes should remain readable in slide format.

Beamer Theme Demo

Slide Structure

This paragraph follows an `h2`, so it should render as a compact content block under a dark-blue section title.

Beamer Theme Demo

Slide Structure

What to inspect

- The top navigation bar should stay fixed across pages.
- The main `h1` should appear as a blue title strip.
- The bottom footer bar should not use Chromium page numbers by default.

Beamer Theme Demo

Metrics Table

Area	Expected result	Check
Page setup	A4 landscape, zero margins	Theme PDF options
Header	Deep blue top bar	CSS pseudo element
Blocks	Dark title + light body	<code>h2 + p/ul/ol</code> rules
TOC	Independent agenda slide	<code>includeToc: true</code>

Beamer Theme Demo

Math Block

Inline math should stay aligned with text, for example $E = mc^2$.

$$\int_0^1 x^2 dx = \frac{1}{3}$$

Beamer Theme Demo

Code Block

```
type Theme = 'academic' | 'beamer';

function shouldShowFooter(theme: Theme): boolean {
  return theme === 'academic';
}
```

Beamer Theme Demo

Quote Block

Beamer mode is intentionally static: it focuses on a slide-like visual structure instead of LaTeX overlays or incremental reveal behavior.

Beamer Theme Demo

Long List

- Use this sample with the Beamer theme selected in the sidebar.
- Enable table of contents to confirm the first generated page keeps the slide styling.
- Leave page numbers disabled to confirm the dark footer bar is the only footer treatment.
- Export to PDF and inspect whether each block keeps enough breathing room on a landscape page.
